

The BelGAS^{CP} P5300 is a backpressure regulator with an integrally mounted pilot. Except where liquid or very low gas pressure is involved, upstream gas is used to operate this unit.

Applications

- Separators
- Heater Treaters
- Compressor Stations
- Gas Gathering Systems

Features

- NACE Construction: All BelGAS^{CP} P5300 backpressure regulators are built in accordance with the requirements of NACE MR0-175.
- Intermittent Acting Pilot
- Soft Seat Material for Bubble Tight Shut-off
- High Capacity

Materials of Construction

Part	Material
Bonnet	Ductile Iron
Upper Housing	Ductile Iron
Middle Housing	Ductile Iron
Lower Housing	Ductile Iron
Main Body	Ductile Iron
Upper Diaphragm	Polyurethane or Fluorocarbon
Middle Diaphragm	Nitrile or Fluorocarbon
Main Diaphragm	Nitrile or Fluorocarbon
Orifices	Stainless Steel
Tubing/Fittings	Stainless Steel

Specifications

Design Pressure	300 PSIG	
Media	Gas and Air	
End Connections	2" NPT	
Temperature	Nitrile	-20 to 180°F (-28.9 to 82.2°C)
	Flurocarbon	0 to 300°F (-5 to 204°C)
	AFLAS	25 to 400°F (-5 to 204°C)
	HSN	-55 to 300°F (-48 to 150°C)
